

Commercial Cleaning & Waterproofing Instructions

Instructions

HOW TO USE

1. Remove all detergent build-up from the detergent dispenser.
2. Load garments/rugs into machine. Items must be free to move in machine. If overloaded, movement will be restricted and coverage may be uneven.
3. Wash according to care label using the appropriate Nikwax cleaning product.
4. Follow with a separate wash cycle using the appropriate Nikwax waterproofing product.
5. Air-dry or tumble dry if care label allows.

Dosage Instructions

CLEANING

Clothing/Equipment use **Tech Wash®**
Horse rugs use **Rug Wash**

Hardness of Water	Volume of Tech/Rug Wash per litre of water in wash cycle
Soft Water	4ml
Moderately Hard Water	7ml
Hard Water	10ml

If the water consumption of the washing machine is unknown, then use the following guidelines based on the capacity of the machine in Kg

	Up to 12Kg	Up to 25Kg	Up to 35Kg	Up to 45Kg
Soft Water	130ml	270ml	370ml	500ml
Moderately Hard Water	230ml	470ml	650ml	850ml
Hard Water	320ml	660ml	1000ml	1200ml

If the machine capacity is between those shown, then multiply the volume accordingly. Volumes of Nikwax® cleaning products (Tech Wash® & Rug Wash) have to be increased if you have hard water.

WATERPROOFING

TX.Direct® Wash-In

125-150ml per Kg of fabric being waterproofed

Rug Proof

1-2 rugs in a machine with a capacity of up to 25Kg use 500ml of Rug Proof.

For a greater number of rugs or a larger capacity machine use the following guidelines: 50ml per Kg of fabric being waterproofed.

Please note: These are only guidelines and the actual dosages of the products may vary due to use in different washing machine models.
